SPECIFICATIONS

Our U-Line are premium standalone plates and are available as a multi-curved front/back plate aswell as two sizes of single-curved side plates.

The plates are monolithic Silicon Ceramic from Saint Gobain and aramid backing. This enables a good protection to weight ratio and edge-to-edge ceramics.

The plates are covered in a very thin drop resistant foam and a liquid-repellent Cordura cover, which protects the ballistic properties against water, oil and similar liquids.

The plates have a thickness of just 26mm.

7-year ballistic warranty.
